DECEMBER 2018,

## ROOM 16

### IF MY TEACHER WAS A FRANKENSTEIN....

"Our favourite piece of writing.."

### WHAT WE HAVE BEEN DOING WITH OUR BUDDY CLASSES?

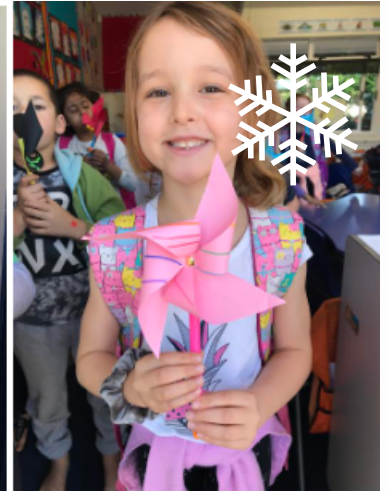

We have been learning about different end of year celebrations for our inquiry with Room 24 and 25. We made these advent calendars to count down the days till Christmas.

## WHAT HAVE ROOM 17 BEEN DOING WITH THEIR BUDDY CLASSES?

Room 17 has been exploring toys that move. So far, we have created two spinning toys, a pinwheel and a whirlygig. We also made monster snappers using split pins and levers that open and shut the jaws. Ask us how to make them as we are now experts!

## SWIMMING

Room 17 has enjoyed their lessons with swimstation. We have all made excellent progress in both skills and confidence. We were inspired to write rhyming swimming poems.

"Swimming, swimming  
So much fun.  
Especially in the warm  
summer sun.  
Oh, what a lovely way to  
cool off in the pool.  
I love to splash,  
I swim like a flash  
I try my best,  
Now I need to rest! "  
-By Jasskerat

"Swimming, swimming,  
Really fun.  
My best trick is to kick,  
On my tummy.  
But when I swallow water,  
It's not yummy!  
I can't float like a boat,  
But others can."  
-By Aizah

DECEMBER 2018

## Dear Mrs Ardern....

Room 18 has been learning how to write a persuasive letter. We have identified different audiences we could write to.

We looked at whether we should or should not ban fireworks. We connected each others' ideas using hexagons. Then, we used those ideas to write to the Prime Minister.

## WHAT WE HAVE BEEN DOING WITH OUR BUDDY CLASSES?

For inquiry, Room 18 and 13 explored how food can change. We looked at the process of changing cream into butter.

Then, we tried it for ourselves.....

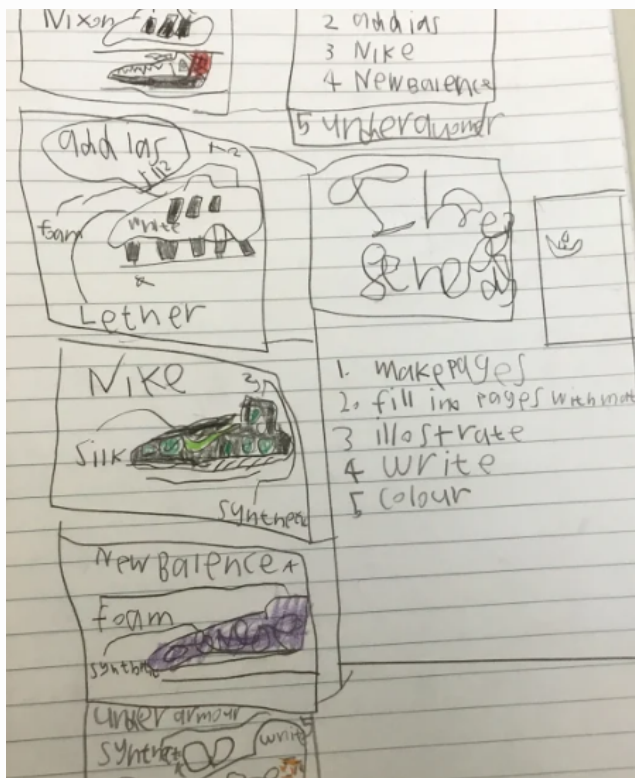

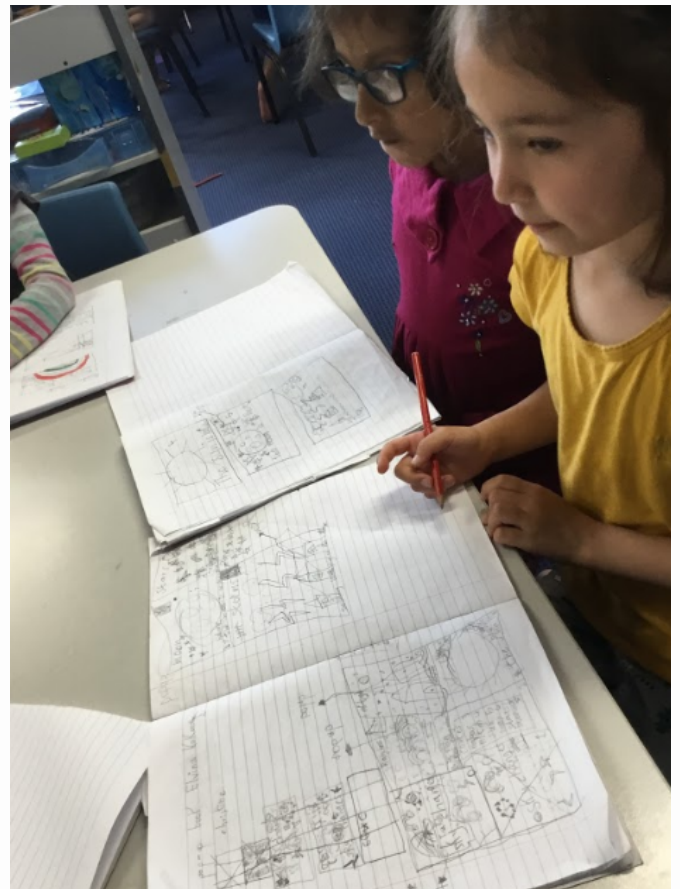

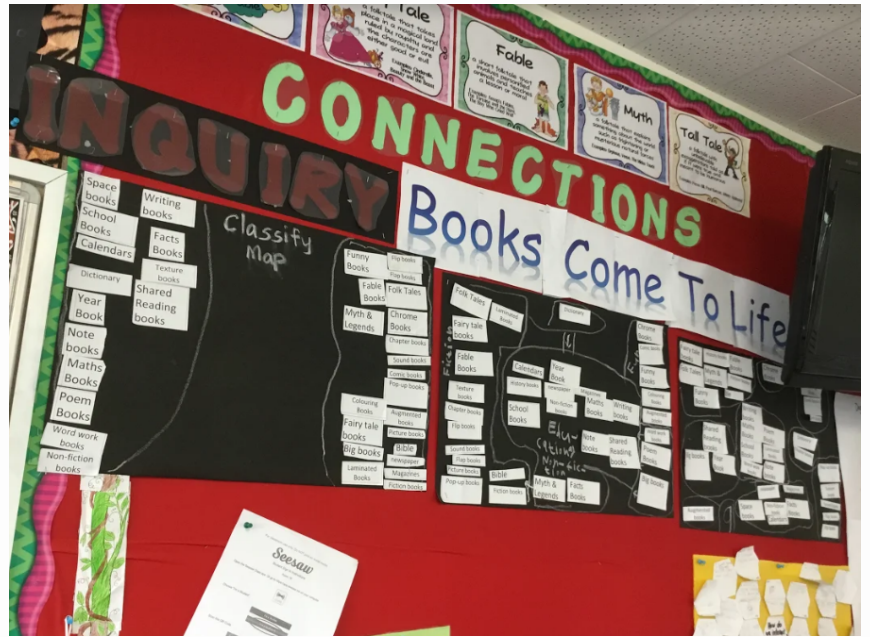

# ROOM 19

## WHAT WE HAVE BEEN DOING WITH OUR BUDDY CLASSES?

Room 19 with their buddy class Room 11 are working on their inquiry titled 'Books Comes To Life'. First the class brainstormed ideas about various types of books they have already seen. They used the words to classify them into different groups and presented it to the class. Now the students are in the process of making an interactive books in their class groups. The students have made their plans and are making a mock-up book before they could make the original one.

Now the students are in the process of making an interactive books in their class groups.

DECEMBER 2018

## In Maths.....

we have been studying shapes. Room 21 children enjoy making 3D shapes. Can you see the cubes?

## What we do for fun...

Room 21 children love jumping on the wooden steps outside our classroom. The round, wooden steps are made from the fallen oak tree. Why don't you come and have a go?
