Tēnā koutou,

Moon Festival at Potters Park

The first Moon Festival will be held at Mt Eden War Memorial Hall and Potters Park on the 14 -15 September. The programme includes showcasing the history of Dominion Road, a lantern parade, cultural exhibitions, performances and food stalls.

For the lantern parade, the event organiser has asked if people within the community are interested in making lanterns for the parade. The organiser would provide people making lanterns LED lights to make them glow for the parade. If you are interested to make a lantern with your child and join in the lantern parade at Potters Park on Saturday evening of 14 September, please email me at icheung@edendale.school.nz or complete the form on the next page and return it to the office. This is a wonderful art project for the family to create at home so let your creativity lead the way!

Thank you for supporting this event.

Kind regards

Ingrid Cheung
